Dear Students:

Please find the TA duties allocated to you this semester. Get in touch with the coordinating instructor at the earliest possible, to know your duties and the faculties' expectations.

This is going to be a completely online semester. The expectations from you as a TA is likely to be different, and a bit more critical than a regular semester. Most courses will use Moodle as the learning management platform, so all of you are encouraged to attend the LMS-moodle hands-on preparatory session scheduled for 30th July (Thursday) at 4pm.
